As we embark on another 365-day journey, RHK is truly grateful to share another year with our readers, fans, models, photographers, and everyone else who continues to support us.

2020 was filled with plenty of memories ... some good, some bad ... but memories nonetheless! The main takeaway from 2020, at least for me personally, was to count my blessings. Be grateful. Savor the moment. Breathe. Look for the positives in every situation. And hopefully I was able to convey that message to everyone I had an opportunity to work with. Even though we faced small obstacles and challenges, we had (and have) so much to be thankful for ... and a better day is always on the horizon!

With all of the challenges we faced in 2020, we were still able to continue our operations without interruption ... and had another great year! We released exclusive content every month, with over 25 all-new issues. We worked with new featured models, while some of our previously featured models returned with even hotter content!

All in all ... last year was a huge success!

In 2021, we hope to get back on our promo-tours, which give us the opportunity to meet and discover the world's hottest models. And, as always, our goal is to deliver the best magazines and products we possibly can ... our readers and fans deserve nothing but the best!

Again, thank you for everything ...

I greatly appreciate YOU!

How to Take a Stress-Free Holiday Road Trip

Holiday travel can be stressful, but it should be fun, too. Advance planning and proper car care can take much of the stress out of a holiday road trip and leaving you free to enjoy the ride.

Checklists for each aspect of the trip will help ensure that nothing important is left behind, and that you are safe and prepared in case of an emergency. When it's time for a holiday road trip, keep these tips in mind for smooth travels:

Check your ride: A complete car check before a road trip should include making sure the fluid levels are sufficient. Make sure wiper blades and the wiper mechanism itself is working properly. Check your lights, including brights, to be sure they are functional. And, last but not least, don't forget your tires. Tires are the connection between your car and the road, so be sure to examine the tread for signs of excess wear.

"Traction and tread are inextricably linked. The grooves in your tires are critical in helping to channel water away to allow the tire to grip the road," says Sarah Robinson, Michelin safety expert. "Making sure you're driving on tires with proper tread can be the difference between avoiding an accident and becoming part of it."

Be prepared: Equip your car with an emergency kit, including water, flashlight, blanket, jumper cables, extra windshield wiper fluid, cell phone charger, and emergency phone numbers for roadside assistance, as well as a contact person at your destination.

Map your route: Check your route in advance and, if possible, plan your trip for times with less traffic. If you are planning to use a map feature on your phone, use the voice component; if you don't have that, consult a paper map and get a sense of the route before you get behind the wheel.

Safety first: That means the driver focuses on driving. If you are the driver and need to check your phone, send a message, have a snack, or tend to a child or pet in the back seat, wait for a rest stop, or if necessary, pull over to the side of the road.

Watch the weather: Especially during winter holidays, knowing the weather in advance can help you plan to avoid a storm. If conditions are truly dangerous, the smart move is to postpone your trip until the weather improves.

THE BEST OF VIRGINIA BEACH

MARYAH

SARAH

&

VIRY

FOR

decades, the hottest markets in the nation for modeling have been New York City, Los Angeles, Miami, Las Vegas, and Atlanta.

However, three of the nation's hottest models now reside in Virginia Beach, and everyone is taking notice.

Don't believe us?

Well, ask anybody who knows anything about the modeling industry in Virginia Beach. Ask anybody who frequents the hotspots in Virginia Beach, such as the Oceanfront, "The Block", or Town Center. Actually, ask anybody within Hampton Roads' "Seven Cities" (as Virginia Beach, Norfolk, Chesapeake, Suffolk, Portsmouth, Hampton, and Newport News are known).

So, who is the hottest model in Virginia Beach?

Depending on who you ask, you may get a different answer, because the reality is that Virginia Beach is becoming a hotbed for gorgeous women. Many of the nation's sexiest models now call Virginia Beach home, thanks to favorable weather, beautiful beaches, vibrant nightlife, and respected photographers.

But, if you ask that question 100 times, we're willing to bet that one of three names will be mentioned 95% of the time: Maryah … Sarah … or Viry.

Or maybe the response will include all three names together …. because all three know each other, they all model together, and they are all good friends.

MEET SARAH, MARYAH, AND VIRY

In order to understand how these three models became known as Virginia Beach's finest, you have to know where they came from. Fittingly, they were all exposed to cities known for producing top models.

Sarah
Age: 25

“I am a Cali girl that got lost in Virginia,” says Viry, while Maryah describes herself as a “free-spirited Puerto Rican bartender, born and raised in New York City.”

And Sarah? She’s a retired Panamanian gymnast, who ended up in Virginia Beach while pursuing her dreams.

In addition to being exposed to big cities known for modeling, all three models can contribute their success to always being photo-shoot ready. In order to keep their bodies as flawless as possible, they each devote countless hours to exercise, fitness, and dance.

“I am a gym fanatic, so the gym is where you’ll find me when I have some time off,” explains Viry.

As a retired gymnast, Sarah places a huge emphasis on the importance of exercise, whenever possible. “I enjoy spending my free time dancing, bartending … or both at the same time.”

However, with all of the demands of modeling, they still find time to enjoy life doing the things they love most.

“I love singing in my car and making people ugly laugh,” says Maryah, whose bubbly personality is evident on Instagram, as she entertains her thousands of followers daily with witty stories and posts.

Viry finds joy “in the hospitality industry during the day and bartending at night.”

And Sarah … well, she continues to pursue her dreams and being “a keeper of my own peace.”

THE FUTURE LOOKS BRIGHT

If their current rise in the modeling industry is any indication, the future looks very promising for Maryah, Sarah, and Viry. All three models are in their early 20’s and they show no signs of slowing down. While some models experience relatively short careers because they enter the industry at a later age, or they turn to body enhancements to further their careers, this shouldn’t be an issue for the Virginia Beach beauties.

“My smile is me sexiest feature,” says Sarah.

“My lips are my sexiest,” adds Viry, with Maryah also agreeing that her lips are her favorite feature.

While fans of all three models may debate these responses regarding each’s “sexiest feature”, there is no denying that Maryah, Sarah, and Viry are beautiful from head to toe … with beautiful personalities to match.
